

**William "Eddie" Amos**

Chief Transformation Officer

After consulting with Torc for over a year, Eddie Amos was called out of retirement to join the leadership team at Torc as Chief Transformation Officer. He will draw on his 35 years of leadership experience to lead Torc's transition to a product-focused organization

Eddie's professional experience includes ten years as a Partner at Microsoft. He also served as a General Manager of Visual Studio and worked extensively with the partner and ISV community. He acted as Vice President of Software and Developer Evangelism at Juniper before helping grow start-up Meridium into a sector leader in asset performance management. Eddie served as Chief Technology Officer at GE Digital and, after the acquisition of Meridium, led the successful integration of both teams. He was later made a Corporate Officer at GE and named Sr. Vice President of Digital Engineering.

Eddie is passionate about building great teams and leading them through complex business challenges, such as developing transformational software solutions. He was inspired to join Torc because it is "one of the most talented teams that I've had the privilege to work with in my career."

Eddie is the Vice Chairman of Go Virginia Region 2, whose mission is to bring high-tech jobs to the Roanoke and New River Valleys. He sits on the boards of the Roanoke Higher Education Center and the Virginia Innovation Council, which work to assist the regional start-up community.
