

## **Dr. Peter V. Schmidt**

CEO

Prior to joining Torc in 2022, Dr. Peter V. Schmidt was the head of the Autonomous Technology Group for Daimler Truck for three years. Before leading that organization, he managed the strategy organization for Daimler Truck, where his focus areas included the Chinese market, autonomous technology, electrification, connectivity, and digital transformation.

Dr. Schmidt also previously led Daimler’s global product and platform management for medium and heavy truck engines worldwide, as well as holding roles in engine production and plant management.

Before joining Daimler, Dr. Schmidt was a principal and consultant at McKinsey & Company serving the automotive industry.
